**A. Dzhakysbekov**  
The Minister of Defense of the Republic of Kazakhstan

«... I am convinced that the exhibition "KADEX-2012" will open new dimensions for co-operation between the Armed Forces and military-industrial enterprises and become a platform for creating new business partnership and extending the scope of activities and co-operation. I hope that business demand will find its successful business supply at this exhibition, and eventually it will provide rejuvenation of the Armed Forces with modern armament corresponding to world standards and as a consequence, strengthening their defense capability. I wish you all successful activities and prosperity! New fruitful meetings at "KADEX-2012"! »

## KADEX - 2010

The first International Exhibition of Weapons Systems and Military Equipment «KADEX-2010» was held in Astana, May 26-29, on the territory of Air Forces Base of the Republic of Kazakhstan, and became a major event in the field of military-technical co-operation between Kazakhstan and other states. Over 200 leading companies for design and manufacturing of defense double- and special-purpose products from 20 countries worldwide. Exposition of the exhibition was launched at 4 pavilions and on the open platform the display area of which was equal to 15000 m<sup>2</sup>.

At official opening of the exhibition President Nursultan NAZARBAYEV of the Republic of Kazakhstan and President Abdulla GUL of the Republic of Turkey, being in Astana on an official visit.

The exhibition ground "KADEX-2010" became a place of meetings and negotiations for official delegations from 40 states.

Within the framework of the exhibition a series of meetings was bilateral negotiations between the leadership of the Ministry of Defense, the High Command of the Armed Forces of the Republic of Kazakhstan and representatives of the largest exhibiting companies.

The business program of the exhibition included a military-technical conference, the main topic of which became technical modernization of the Armed Forces and development of the defense-industrial complex of Kazakhstan and workshops, round tables and presentations with participation of the leading world companies in the field of production of modern armament, military equipment and special facilities.

Combat capabilities of different branches of the Armed Forces of Kazakhstan and examples of their interaction as well were shown to participants and guests of the exhibition at a specially equipped test site.
