## A2 Tej Trade Ltd.

**Category:** Dairy products

The A2-milk takes the experience of milk consumption to a new level. This innovative product contains exclusively  $\beta$ -casein A2 protein. It has been made for those who would like to enjoy the rich taste of fresh milk. The A2-milk can be an excellent choice for sensitive stomachs.

The owners and workers of the A2 Tej Trade Kft, based in Dömsöd, as well as of the Dunatáj Mg Kft, in cooperation with some domestic and international research institutes and universities, have increased by targeted selection, the production of domestic milk with a more favourable protein content, thus creating the basis of raw material for the daily production of many ten-thousand liters of A2 quality milk.

Our raw material is produced in a GMO-free production with the support of the Holstein covenant.

## Grand Tokaj Plc.

Category: Wine

Grand Tokaj is the largest winery in the historic Tokaj-hegyalja wine region bearing the title of a UNESCO World Heritage Site and is the guardian and protector of our national winemaking tradition. The company is the flagship of wine production in the region being the largest winery – possessing a total of 66 hectares of vineyards and providing for 35% of the regions total. As the integrating force of the region we purchase grapes from over 1200 small producers across some 1050 hectares of land. Thanks to developments the winery is now able to manufacture products to a higher standard from grapes cultivated both on its own land and procured from outside producers. A storage tank facility of 66,000 hectolitres capacity was opened in 2014 providing the winery the technological conditions necessary to produce wine of an international standard and a bottling plant with an annual capacity of 10 million bottles.

## Malatinszky Organic Wine Estate

**Category:** Wine

Csaba Malatinszky aims to revive the tradition of noble Hungarian wines, focusing on innovation and a philosophical approach rather than conventional business strategies. His efforts to promote Cabernet Franc in the Villány wine region have garnered international acclaim, with endorsements from wine experts like Carolyn Gilby of Decanter. Since 2009, the estate has adopted organic farming practices, ensuring that all Kúria wines are bio-certified. This commitment reflects a dedication to both quality and sustainability in winemaking. Malatinszky currently has 30 hectares under cultivation and has planted his vineyards with advice from the University of Bordeaux. His Cabernet Franc is internationally recognised, as being one of Hungary's finest examples.

## Nagykun 2000 Agricultural Ltd.

Rice-ler

**Category:** Grain Products, Free-From Products

The Nagykun Corporate Group, one of the region's main operators, employs 140 people, and has been involved in agricultural production since the 1950s. We currently cultivate about 4.500 hectares of land with traditional arable crops and rice. Our dairy farm has 460 milking cows with an annual production of 5 billion litres. On its 1,650-hectare rice fields near the southern and southeast border of Kisújszállás, the NAGYKUN corporate group grows rice on roughly 800-850 hectares annually,

of which 1/3 is organic rice. The corporate group's own state-of-the-art husking plant processes the 3,500-4,500 tons of premium Nagykun rice produced annually. We presently deliver our products to several food chains (Spar, Rossmann, Coop, Reál) and operate our own webshop.
