

2026

Cherkasy region

POTENTIAL AND COOPERATION OPPORTUNITIES

Why Cherkasy region?

Beneficial geographic location

Strategic location and natural resources create favorable conditions for business development.

Developed ecosystem of mechanical engineering enterprises

Available network of mechanical engineering enterprises, qualified personnel and manufacturing facilities create the foundation for the growth of high-tech production.

Availability of undeveloped deposits

It has a significant potential of mineral resources available for exploration and industrial development.

Powerful agricultural sector

It creates potential for deep processing of local raw materials.

Qualified personnel and education

A developed network of educational institutions, including those with dual education programs ensure training of specialists to meet the labour market demand.

Cultural and tourism potential

The region has a rich cultural heritage which creates significant but underutilized tourism potential.

Cherkasy region has mineral and raw materials potential

Four industrial parks (IPs) have been created in Cherkasy region

AVAILABLE LAND PLOTS FOR PLACING PRODUCTION

Basic taxes and tax incentives

Since 2020, the Law of Ukraine “On State Support of Investment Projects with Significant Investments in Ukraine” has been in force.

The law provides state support to Ukrainian and foreign investors with a total investment amount starting from

€12 mln

In 2016, the Investment Promotion Office was established

MAIN TAXES

Corporate income tax

18%

Unified social contribution

22%

Personal income tax

18%

Value added tax

20%

Military levy

5%

TAX INCENTIVES

Exemption from import duty

machinery and equipment imported into Ukraine for the implementation of investment projects (valid until January 1, 2035).

Exemption from VAT

VAT on the import of machinery, equipment, and components for projects with significant investments (valid until January 1, 2035).

Exemption from corporate income tax

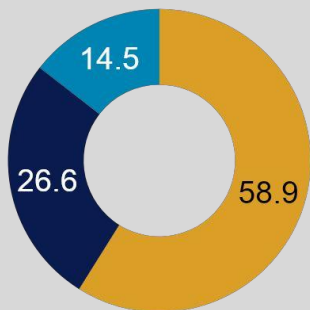

Applies for five years after the commissioning of an investment project facility, within the term of a special investment agreement.

The untapped potential of the economically active population creates favorable conditions for attracting new businesses

Population

1,157

million people

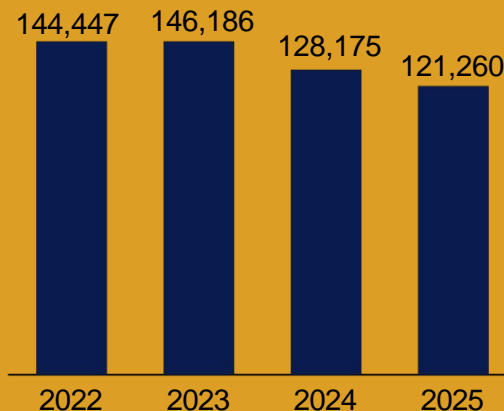

16-59 60+ 0-15

Population aging leads to a reduction in the labor force, increased social burden, and a growing need to attract young people and skilled professionals

Number of IDPs

121,260

people

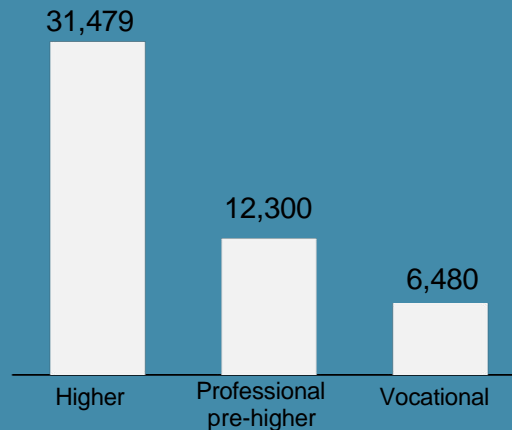

A high share of internally displaced persons (IDPs) creates additional pressure on the labor market and highlights the need for employment and retraining programs

Number of students

49,680

people

Low number of students is caused by the weaker position of local higher educational institutions, youth outmigration, proximity to Kyiv, and low demand for certain specialties.

Cherkasy region has a well-developed network of higher and vocational education institutions that train specialists for a wide range of sectors

49 680

students in total

31 479

students in higher education institutions (universities)

12 300

students in professional pre-higher education institutions

6 480

Priority spheres for projects' implementation

1

Niche mechanical engineering

2

Processing of agricultural raw materials

3

Storage facilities for vegetables and fruit and berry products

4

Small hotel complexes and campsites

Available industry ecosystem, skilled professionals and industrial sites create conditions for the development of niche mechanical engineering

WHAT CAN BE IMPLEMENTED

01

Production of small-sized specialized equipment or components, including: vans, fuel trucks, dump trucks, flatbed platforms and tanks of various classes.

02

Production of machinery and equipment for demining, such as light chassis for mobile platforms, trailers, mechanized trawls, and auxiliary tools for humanitarian and technical demining.

03

Adaptation of products to meet the needs of the domestic market and specific export niches, particularly in agricultural and housing & utilities sectors.

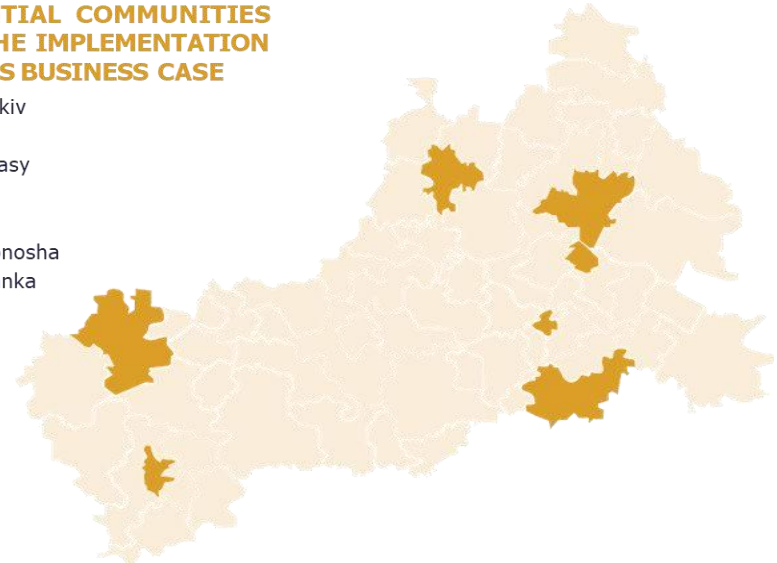

PROJECT IMPLEMENTATION FORMATS

Manufacturing partnership with local companies that already have infrastructure and personnel.

Establishment of a new enterprise in one of the region's communities on operating industrial sites or within the industrial parks.

POTENTIAL COMMUNITIES FOR THE IMPLEMENTATION OF THIS BUSINESS CASE

- Zhashkiv
- Smila
- Cherkasy
- Uman
- Kaniv
- Zolotonosha
- Kamianka

Processing of agricultural raw materials

WHAT CAN BE IMPLEMENTED

01

Facilities for deep processing of grain and oilseeds: flour, oil, groats, compound feed, protein concentrates.

02

Production of fruit and vegetable-based products: pastes, juices, jams, dried and frozen fruits and vegetables.

03

Processing with processing enterprises for the production of juices, purees, frozen products.

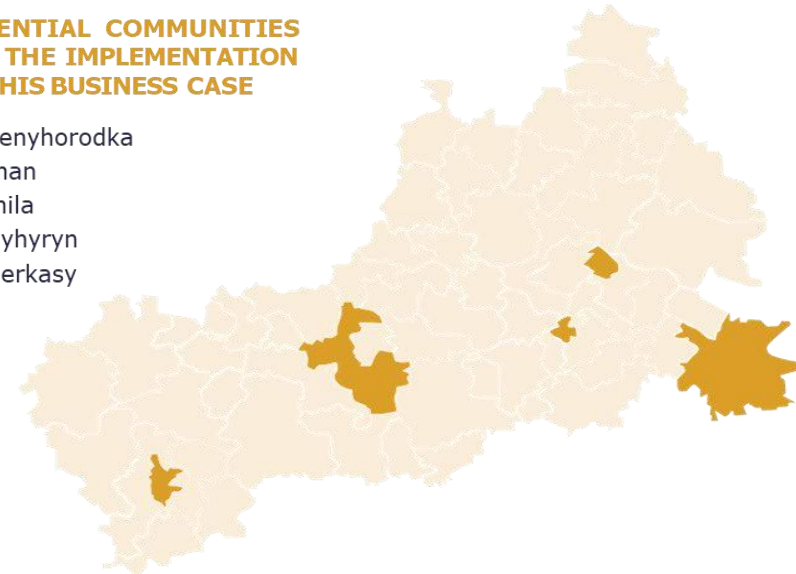

PROJECT IMPLEMENTATION FORMATS

Industrial partnership with existing agricultural producers or food industry enterprises.

Establishment of a new enterprise in one of the region's communities on operating industrial sites or within the industrial parks.

POTENTIAL COMMUNITIES FOR THE IMPLEMENTATION OF THIS BUSINESS CASE

- Zvenyhorodka
- Uman
- Smila
- Chyhyryn
- Cherkasy

Construction of storage facilities for vegetables and fruit-and-berry products

WHAT CAN BE IMPLEMENTED

01

Construction of vegetable and fruit storage facilities with controlled- atmosphere storage.

02

Establishment of cold-chain logistics hubs for centralized transportation and cooling of produce.

03

Integration with processing enterprises for the production of juices, purees, and frozen products.

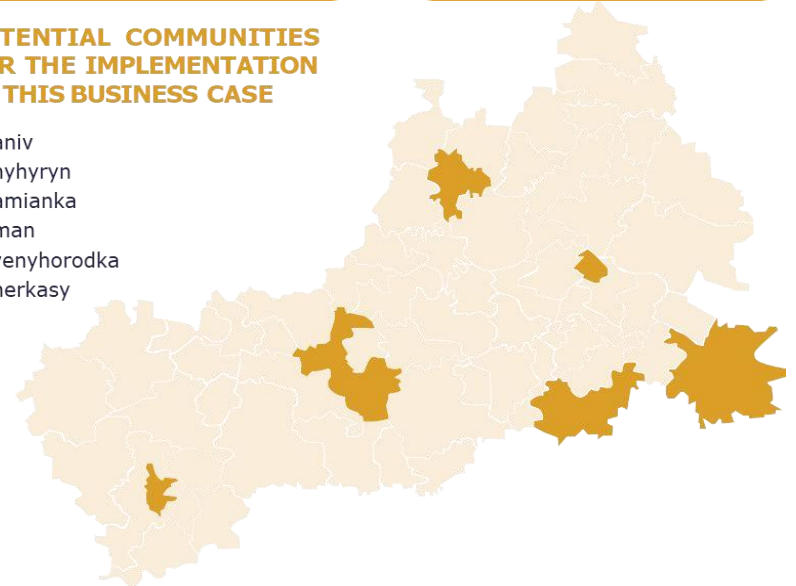

PROJECT IMPLEMENTATION FORMATS

Partnership with agricultural producers and existing cooperatives for engineered centralized storage.

Placement of projects in communities with existing engineering infrastructure.

POTENTIAL COMMUNITIES FOR THE IMPLEMENTATION OF THIS BUSINESS CASE

- Kaniv
- Chyhyryn
- Kamianka
- Uman
- Zvenyhorodka
- Cherkasy

The construction of small hotel complexes and campsites will make it possible to satisfy the demand for recreation from residents of neighboring cities

WHAT CAN BE IMPLEMENTED

01

Creation of glamping sites, campsites, mini-hotels and apart-hotels in recreationally attractive communities.

02

Creation of agritourism estates in cooperation with farmers and craft producers.

03

Integration with tourist routes, festivals and the region's gastronomic brands.

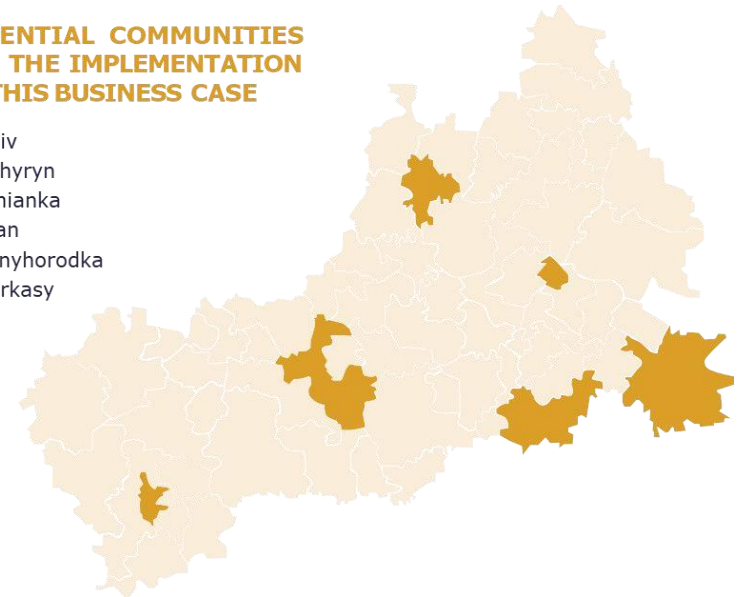

PROJECT IMPLEMENTATION FORMATS

Cooperation with local craft producers, event organizers, and gastronomic route developers to create offerings for visitors.

Investing in accommodation facilities near tourist routes or locations with an existing flow of visitors.
