

GALACTICA PROJECT - OUTLOOK FOR 2022

The GALACTICA project looks back on a successful year 2021 and looks forward - after a few well-deserved quiet days - to take off together into a new year full of possibilities. Check out our [webpage](#) for a recap of our achieved goals in 2021 and all the upcoming funding opportunities and events.

→ Safe the date and apply already for a free Travel Voucher for our [2nd GALACTICA Matchmaking day: February 10th in Brussels](#) (or Online), and don't miss the chance to participate to **B2B meetings** and identify potential partners to apply for GALACTICA funding under Pioneer Acceleration and Orbital projects.

- Community-building and networking opportunities across the three key sectors of GALACTICA: Textile, Aerospace and Advanced manufacturing.
- Networking with participants and the GALACTICA Team
- Virtual space within the GALACTICA Community Platform
- Key information regarding the 2nd Galactica Calls for proposals. Gather first-hand information on how to apply and participate successfully.

→ **Online Info Day: 27th of January!** [Registration here!](#)

Learn how to best prepare for a GALACTICA project application and how to find suitable partners for your project.

→ **End of January 2022**, GALACTICA will launch the [2nd Call for proposals](#) with **1.64M€** in budget and will have **two different types of funding instruments, in the form of lump-sum vouchers**, that are addressed to SMEs and start-ups with innovative solutions that could be part of cross-sectoral and cross border value chains in the relevant sectors.

If you need further information or have any questions, please contact Mr. Jona Helmert. Feel free to share the project and the events with interested partners!

Kind regards,
Jona Helmert
Project Manager GALACTICA

ABOUT GALACTICA

GALACTICA project is a cross-regional partnership across eight EU countries that involves eight innovation clusters from advanced manufacturing, aerospace, and textile industries, one investor network and one business incubator and accelerator.

The project will foster the creation of unidentified or unexplored market opportunities for existent and new companies in the development of latent and emergent value chains. It will overcome information and market failures by gathering together companies from diverse industrial sectors, R&D organizations, clusters and by bringing to life a set of tools, instruments and triggering initiatives that will create a basis for the establishment of new value chains across textile and aerospace industries.
