

KAUNAS CHAMBER  
OF COMMERCE,  
INDUSTRY AND CRAFTS

Dear Partners, Dear Colleagues,

Please accept our deepest sorrow due to the current days' situation happening in Ukraine. Kaunas Chamber of Commerce, Industry and Crafts business community strongly condemns Russia's military aggression against Ukraine and its people. We support the International community response, including economic sanctions, against this aggression, violating international law and threatening World's security. The measures should be applied firmly and substantially, even though they will have an impact on countries' economies and businesses.

With this letter, we would like to express our support and solidarity towards you, our colleagues, towards Ukrainian Chamber of Commerce and Industry members', towards entrepreneurs and the overall Ukraine nation.

With the coordination of Kaunas city municipality and other Civil society organizations our business community members are already offering support according to their business activity to war refugees – safe shelter, food, transportation, rehabilitation, etc. We are encouraging our members to support initiatives such as „Blue / Yellow“, that are supporting Ukrainian armed forces and volunteers.

We would also like to encourage you to contact us if you see how we, as the business community, can support you during these not easy days. Please remember that you are not alone! We and our members are ready to help as we can.

Ukraine, stay strong! Slava Ukraini!

Director General of Kaunas Chamber of Commerce, Industry and Crafts

Olga Grigienė

Kaunas, Lithuania
