

The Danish Chamber of Commerce's Annual Innovation Award

The Danish Chamber of Commerce (DCC) is an umbrella for the Danish business community in Lithuania and Danish-Lithuanian relations. One of the corner-stones in our work is related to innovation. Read more on www.dcc.lt

"The Danish Chamber of Commerce's Annual Innovation Award"

DCC has decided to set up an annual innovation competition awarding the best Lithuanian innovations.

For the award we are seeking for the best Lithuanian ideas and innovations. The best technical wonders, the most innovative designs or the brightest concepts ready for implementation – and with a global mind.

Win a tailor made trip to Denmark – meeting DCC networks

The winner will receive professional coaching by some of the most successful business people from Denmark and Lithuania. He or she will get a tailor made, fully paid, business trip to Denmark. Arranged one-to-one business and network meetings – all with the aim of promoting your innovations and finding you the right partners.

How to join?

We will the 20th of March arrange a demo day, where all who wishes can participate and present their idea. You can register on secretary@dcc.lt

The five most innovative teams/presentations will be nominated and will be invited to make a presentation at our innovation conference the 8th of May. Here the final winner will be found.

Demo day the 20th of March

All teams who wish to join, will get the opportunity to make a presentation. DCC have elected a jury which will evaluate the ideas out from 3 criteria:

- How innovative is the team and the idea
- How well was the presentation
- How global is the potential – and is it possible to connect the team with some of our members and other Danish investors/companies

You will then as well be given an opportunity to upload a short introduction on our web – if you wish. A few projects are already uploaded, please look at <http://www.dcc.lt/other-activities/innovation-network>.

DCC will in February and March advertise the side towards members and others on our mailing list and in our network.

Sponsor members

An invitation for the demo day and the conference will be send out in February.

What is our aim?

DCC connects good ideas and innovations to our members and our international network. We aim to directly support or help finding support for new innovations as well as offering our members and companies potential partnerships. DCC can help new innovations with contacts to new international networks – our members, business angels etc.

Why participate?

- To showcase your company or innovation
- To become a part of our innovation network
- To widen your international network
- To access our network and find potential business partners
- To find potential financial support and to get advise on seed capital
- To win "The Danish Chamber of Commerce's Annual Innovation Award"

When is the deadline?

The deadline for participation is 1st of March 2012.

In case you have any questions please do not hesitate contacting us on: chairman@dcc.lt

Best regards

Thomas Solupajev-Ronlev
